Subject: reopening neonic comment period for 30 days

Matt, Ricardo,

We've been asked to reopen the neonic comment period for another 30 days following the extension requests received on May 1st, so this should be a priority for the day. Please see the attached as an example for how the FR should look, and let's try to get this drafted and up to Elissa and Billy asap. We should also alert the team.

Thanks,
Dana

Subject: RE: example FR reopening and extending a comment period

Yes, the pyrethroids had two comment periods for the eco risk assessment—the first comment period had to be reopened awhile later. See attached FRN

Subject: FW: example FR reopening and extending a comment period

Does anyone have an example for Dana?

I originally thought of flumethrin, but I don't think we had to reopen the comment period. Did the pyrethroid have a new FRN?

Subject: example FR reopening and extending a comment period

Hi all,

Im hoping one of you might have an example of an FR we put together to reopen and extend a comment period – we've been asked to do this for the neonics.

Thanks,
Dana
